CRANESERVICEsystems

CSS will set new standards in the crane service and sales industry by developing objectives that meet or exceed your expectations. We will ensure that safety is a component of our system that must be adhered to with passion. Our goal is to continue being leaders in the industry by taking on challenges and turning them into opportunities. The evolution of our business depends on continuously improving the service we provide to the end user, our customer.

LOCATION & EXPERIENCE

Crane Service Systems is strategically located in areas throughout the province to provide maintenance of all overhead hoisting equipment, backed by several years of experience with leading crane and hoist manufacturers. CSS is confident it can meet the service requirements regardless of make or model of your hoisting equipment. CSS has the most versatile technical base in the industry and can perform simple troubleshooting tasks or install entire systems that include a comprehensive commissioning package.

SAFETY, INSURANCE & WSIB

All our technicians have been factory trained and certified to safely use different equipment to service or install all your material handling requirements. CSS prides itself for ensuring that safety is a priority on or off the job. Crane Service Systems will work with the customer to provide recommendations on their current safety practices in order to help minimize any potential for accidents or damage to material handling equipment. CSS is fully insured and is covered by WSIB.

OUR SERVICES

Crane Service Systems offers a wide variety of services 24 hours, 7 days per week. We provide customized services that will meet the needs of each individual customer. Our sales staff and engineers will guide customers towards the safest and most economical solution, whether it is a standard crane system, a crane system requiring specialized

engineering, or a complete runway application. Our highly qualified technicians are able to provide service on basically any type of equipment. The service and follow-up measures ensure that the customer is satisfied and is one of our basic strategies in order to maintain customer satisfaction on a continuous basis. The service centre is prepared to offer all our customers "on call" service when needed and will also develop a Preventative Maintenance program to maximize your uptime.

OUR PRODUCTS

Crane Service Systems is an authorized distributor and service facilitator for Munck Cranes. Munck Cranes is recognized for its manufacturing flexibility and have developed many unique lifting systems that customers have requested since 1983. A wide variety of cranes ranging from standard units to

Hot Metal Cranes are available. Munck manufactures to CMAA specifications and is ISO certified. We also carry other types of hoist and lifting equipment manufactured by leaders in the industry. Customized lifting attachments, including Slings, Chains, Remote Controlled Pendants and Specialized hooks are available as well. CSS will come to your facility to review your requirements and ensure you get what you need in order to safely handle any type of process.
